

Course Outline for: Lockout & Tagout

Course number: ES00-03

Course Length:
4 hours, 1 Day

Pre-requisites:
None

Course Record:
Lockout & Tagout Awareness. Developed by Envirosafety Confined Space Equipment Inc., ©2005-2010

Texts and Equipment:

Recommended:
Lockout/Tagout corporate program.

Provided:

Course workbook, handouts, exercises, exams, pens, wallet certificates, hard hat sticker certificates. Employer will receive copies of all participants' certificates within 24 hours of course completion.

Course Description and Goals:

This course is intended for any personnel that will be entering, working in, providing stand-by for or monitoring confined spaces where lockout or isolation is required. This course gives the participant the information required to understand what is involved in locking out hazardous energy sources, and when it is required. The outcome will leave the student with an understanding of the hazards associated to environments where lockout is required. This course is one component of a confined space training program and when taken by itself is not designed to provide the skills needed to enter a confined space.

Method of course delivery:

75% PowerPoint Presentation
25% Student Exercises

Student/instructor ratio- 1 instructors per 12 students

Evaluation:

100% Written Test

Topics of instruction within this course include, but are not limited to:

- + WorksafeBC Regulations.
- + Why use Lockout.
- + What is Lockout.
- + Energy Sources.
- + Lockout Methods.
- + When is Lockout Required.
- + Lockout Procedures.
- + Lockout Responsibilities.

Course Learning Outcomes:

Upon successful completion of this course, the Participant will be able to:

- + Explain the WCB requirements for lockout & isolation.
- + Understand when lockout is required.
- + Determine risks associated with hazardous energy sources.
- + Understand methods of lockout.
- + Explain lockout procedures.
- + Understand lockout responsibilities.

Course Policies and Information

Exams:

The minimum score to receive a “pass” in an exam or course is 70%. If a student fails an exam, they may apply for one opportunity to re-write the exam. The student must arrange to take the re-write exam within thirty days of the original exam. Re-write exams will be of a similar nature, scope and content to the original exam, but with new examinable content.
