

Ladder Safety, On-Line Training

Course number:	ESOL-13
Duration:	Approx 45 Min
Cost:	30.00 Per Person
Pre-requisites:	None

Course Description

Provinces across Canada regulate the use of ladders in all workplaces because the improper use of a ladder could cause significant injuries. Anyone who uses a ladder must comply and obtain the necessary training in order to:

- + Reduce or eliminate worker injuries
- + Avoid worker compensation premiums

The program complies with all the necessary regulations and is produced in order to accommodate various learning styles filled with graphics and video to make it easy to understand, memorable and accurate. A quiz must be completed after each of the 5 modules. The program is run through our Learning Management System (LMS) which allows the administrator to track the user's progress, reporting, documentation.

Upon successful completion, a **2 year Ladder Safety certificate** will be issued automatically.

Online Course Content

Hazard Identification and Control

- + Potential Hazards
- + Common Causes of Accidents

Ladder Selection

- + Ladder selection process
- + Ladder grades
- + Types of ladders

Inspection Procedures

- + Inspection Items
- + Ladder markings

Safe Ladder Setup and Use

- + Personal factors affecting user
- + Personal Protection Equipment

- ✚ High traffic areas and environmental conditions
- ✚ Proper setup
- ✚ Climbing and descending

Proper Care, Transportation and Storage

- ✚ Proper care
- ✚ Transporting ladders
- ✚ Storage

At the conclusion of the training session participants will:

- ✚ Understand the different applications of ladders and the importance of proper selection.
- ✚ Know how to safely setup and use a ladder.
- ✚ Know how to inspect, store, maintain and properly care for ladders.
